SUPERIOR³ PLATFORM LIFT

Superior³ Platform Lift

The Superior³ disabled access platform lift is specifically designed to greatly improve access for all and blend in with existing surroundings.

The Superior³ is very economical to buy, install and run compared to most other lift systems. In addition to a very efficient drive system, these lifts have a low energy 'stand-by' mode.

The self-contained enclosure can be assembled within days, minimising location disruption and costly builders work.

* Note: Glass panelled option shown

TECHNICAL SPECIFICATION

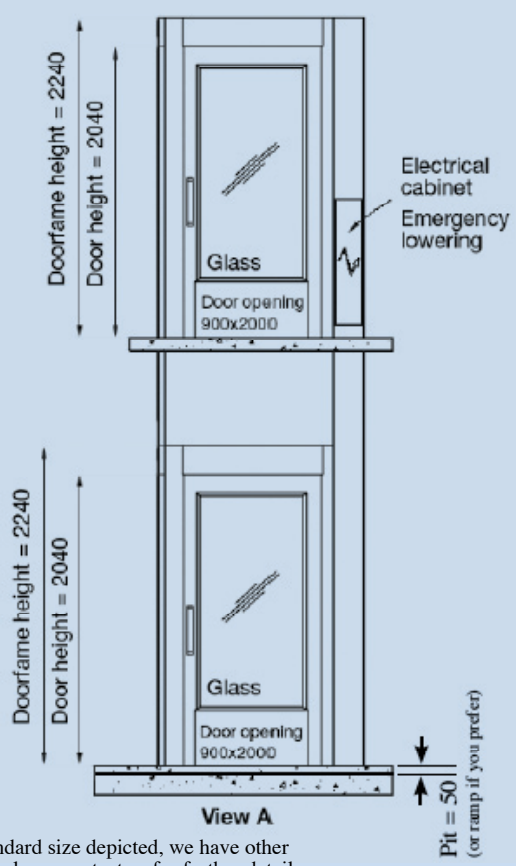

SUPERIOR³ PLATFORM LIFT

Lifting Capacity	410kgs
Lifting Heights	Suitable for 200mm up to 13000mm (up to 6 stops)
Drive System	Patented double safety nut and screw
